Dear Gabriel Daigle,

I just wanted to thank you for the wonderful time I had at your training class. I was blown away by your hospitality and commitment to this class. I came away with a much better understanding of your equipment and put it to use as soon as I returned. I look forward to working with you to improve our jobsite safety and production on all of your scaffold products. Please keep us informed of upcoming classes so that all of our foreman can receive this great class. You are a great teacher and keep up your enthusiasm because it resonates in all of us when we return.

I would be remiss if I did not include Cathy Corriveau in this letter. I'm sure you understand what she does for this class. I just wanted to let you know that she carries the same attitude that you poses for your class, and everything that she did was first class.

Sincerely,

Paul Contrino
Superintendent
