L'Assomption, Quebec, Canada J5W-2T9

Gabe,

It was nice hearing from you, and the pictures of the Saudi Job were awesome. I just wanted to let you and Hydro Mobile know that I am proud to be the owner of a large fleet of M1, M2, & P Series Hydro Mobile Scaffolding. Having 24', 12', 14' Units and all the accessories has made it easy for us to be safe, versatile, and competitive in the masonry industry. I believe we bought our 1st unit in 1998 and have been adding units ever since. I know Hydro Mobile is still the best way to the top. Our units have held up great. We know we can count on new ideas and equipment from Hydro Mobile that fits any and all jobs. The training and service from Hydro Mobile's local distributor Great Lakes Scaffolding is also outstanding and key to the success of our company. We all appreciate the great relationship we have with you and Hydro Mobile and look forward to many more years to come.

Thanks, 
Dennis Knowlton, President
