

Knowlton & Sons Masonry Construction, Inc.

"We have been using M-Series work platforms from Hydro Mobile for more than 8 years and now own over 20 M-Series units. With their 20,000 lb capacity, the M-Series offers what we need for masons, for whom capacity is a major concern. And when potential clients get to know that you work with Hydro Mobile, they automatically see that you are more likely to perform."

Dennis Knowlton

President

Knowlton & Sons Masonry Construction, Inc.
